#### CALCULATION OF REGISTRATION FEE

Title of Each Class of Securities to be Registered	Amount to be Registered	Proposed Maximum Offering Price Per Share	Proposed Maximum Aggregate Offering Price	Amount of Registration Fee
Common Stock, \$.001 par value	8,805,910 Shares(1)	\$ .344(2)	\$ 3,029,233	\$ 799.00
<b>Total</b>	<b>8,805,910 Shares(1)</b>		<b>\$ 3,029,233</b>	<b>\$ 799.00</b>

(1) Shares of common stock that may be offered pursuant to this registration statement consist of 7,780,750 shares issuable upon conversion of \$750,000 in principal amount of 12% Convertible Debentures and 1,025,160 shares issuable upon exercise of warrants issued in connection with the 12% Convertible Debentures. For purposes of estimating the number of shares of common stock to be included in this registration statement, we calculated (i) 200% of the aggregate number of shares of common stock issuable in connection with the conversion of the 12% Convertible Debentures, determined as if the Convertible Debentures, together with accrued and unpaid interest through August 31, 2002, were converted in full at the conversion price of \$0.24, which was the conversion price in effect on September 7, 2000, plus (ii) 100% of the number of shares of common stock issuable upon exercise of the warrants. Pursuant to Rule 416 under the Securities Act of 1933, as amended, this Registration Statement also covers such indeterminate additional shares of common stock as may become issuable as a result of stock splits, stock dividends or other similar transactions.

(2) Estimated solely for the purpose of calculating the registration fee pursuant to Rule 457(c), based upon the average of the high and low prices of the common stock on September 6, 2000, as reported by the Nasdaq SmallCap Market.

THE REGISTRANT HEREBY AMENDS THIS REGISTRATION STATEMENT ON SUCH DATE OR DATES AS MAY BE NECESSARY TO DELAY ITS EFFECTIVE DATE UNTIL THE REGISTRANT SHALL FILE A FURTHER AMENDMENT WHICH SPECIFICALLY STATES THAT THIS REGISTRATION STATEMENT SHALL THEREAFTER BECOME EFFECTIVE IN ACCORDANCE WITH SECTION 8(A) OF THE SECURITIES ACT OF 1933 OR UNTIL THE REGISTRATION STATEMENT SHALL BECOME EFFECTIVE ON SUCH DATE AS THE COMMISSION, ACTING PURSUANT TO SAID SECTION 8(A), MAY DETERMINE.

## TITAN MOTORCYCLE CO. OF AMERICA

We design and manufacture high-end customized heavyweight motorcycles. We build both highly customized, individually assembled motorcycles and high-end, assembly-line produced motorcycles. A heavyweight motorcycle is a motorcycle with an engine size or displacement of 651 cubic centimeters or greater. Our products are distributed through a network of approximately 55 domestic dealers and 20 foreign dealers.

We currently maintain three product lines.

**PREMIUM MOTORCYCLES:** We manufacture seven premium models with a package of over 200 custom options. Customers design their motorcycles by choosing colors, paint design, finish, fenders and various performance and aesthetic enhancements. Premium models are typically constructed and delivered in six to ten weeks from the order date. Our premium models represented approximately 75% of our fiscal year 1999 revenues. The average retail selling price for our premium models is approximately \$35,000.

**"PHOENIX BY TITAN" MOTORCYCLES:** Our "Phoenix by Titan" line of motorcycles was introduced in March 1999. We manufacture four "Phoenix by Titan" models with six standard customization packages available through our dealerships. Our Phoenix models represented approximately 23% of our fiscal year 1999 revenues. The average retail selling price for the "Phoenix by Titan" models is approximately \$23,000.

**APPAREL AND ACCESSORIES:** We have recently developed a line of Titan apparel and accessories. We are also developing a premium line of upgrade parts which are compatible with Titan and other "V Twin" motorcycles.

We are a Nevada corporation formed on January 10, 1995. Our principal executive offices are located at 2222 West Peoria Avenue, Phoenix, Arizona and our telephone number is (602) 861-6977.

## RISK FACTORS

BEFORE PURCHASING ANY OF THE SHARES COVERED BY THIS PROSPECTUS, YOU SHOULD CAREFULLY READ AND CONSIDER THE RISK FACTORS SET FORTH BELOW. YOU SHOULD BE PREPARED TO ACCEPT ANY AND ALL OF THE RISKS ASSOCIATED WITH PURCHASING THE SHARES, INCLUDING A LOSS OF YOUR ENTIRE INVESTMENT.

WE WILL BE UNABLE TO CONTINUE OUR OPERATIONS IF WE ARE UNABLE TO REPLACE OUR SENIOR CREDIT FACILITY AND RAISE NEW CAPITAL

The report of the independent accountants on the financial statements included in our Form 10-KSB for the fiscal year ended January 1, 2000 included an explanatory paragraph discussing going concern issues. These issues included the fact that our primary financing source expired April 10, 2000, at year-end we did not have another facility available to refinance this debt, and we were incurring losses from operations.

We received modifications and extensions through September 18, 2000 to our line of credit with Wells Fargo Credit, Inc. The latest extension was granted in light of our continuing inability to date to secure a new credit facility to replace the existing line of credit. In this regard, discussions with two potential new lenders that had expressed a preliminary interest in replacing and expanding the existing facility have terminated, and we are in the process of seeking additional capital and a new lender. Among other things, the modification and extension with Wells Fargo further limits our borrowing capacity and requires that we develop and implement profit improvement and asset reduction plans and engage an investment banker to seek strategic alternatives, including selling the business. If we are unable to replace or further extend the Wells Fargo line with a new credit facility on a timely basis, we will be forced to sell or wind down our business. In addition, the loan agreement with Wells Fargo contains various continuing obligations, including financial covenants. If we fail to satisfy these covenants, we would be in default under the loan agreement, which could force us to liquidate or file for reorganization.

As of September 14, 2000, the Company was not in compliance with certain of these covenants and has received a verbal waiver from Wells Fargo Credit, Inc.

## WE ARE SUFFERING FROM A LIQUIDITY CRISIS

Our operations require significant levels of cash to fund the production of our motorcycles. We have funded our operations with our existing credit facility, equity infusions and cash from operations. Our lender has reduced our credit line and we may not be able to raise new capital. In addition, we are receiving increasing pressure for additional payments from trade creditors, and are encountering difficulties in obtaining necessary parts from these suppliers to manufacture our motorcycles.

Many of our dealers received floor plan financing for our products through Transamerica Commercial Finance Corporation and Deutsche Financial Services. Although the dealers are the obligors under these floor plan agreements and are responsible for all principal and interest payments, we are subject to a standard repurchase agreement that requires us to buy back any of our motorcycles at the wholesale price if the dealer defaults and the motorcycles are repossessed by one of these floor plan providers. Transamerica has notified us of a default and has terminated flooring arrangements with certain affiliated dealerships. In addition, three distributorships owned by the Keery family, which controls Titan, are in the process of being sold or shut down. These dealerships have historically accounted for a substantial portion of our sales. These affiliated distributorships currently owe us \$425,000 in net receivables, collection of which is uncertain. As a result of the cancellation by Transamerica, the inventory held by these dealerships has been returned to us, with a corresponding payment due Transamerica in the amount of \$1,300,000. In connection with this repurchase of \$1,300,000 in motorcycle inventory, we have entered into a forbearance agreement with Transamerica that requires us to repurchase the related motorcycles over a maximum three month period with a required minimum payment in three equal installments. The final installment is due on October 17, 2000. We have subsequently sold approximately one-half of the related motorcycles and satisfied the required installment in August 2000 and anticipate making the required installment for September 2000 when due.

There can be no assurance that we will be able to sell the remaining motorcycles or meet the installment payment requirements. If we are unable to comply with the terms of the forbearance agreement, our ability to sell motorcycles funded with commercial flooring may be eliminated, which would have a material adverse impact on our financial condition.

In light of the foregoing, we are actively reviewing a number of possible strategic alternatives, including:

- seeking alternative sources of capital or debt financing;
- negotiating to maintain the Transamerica and Deutsch facilities in place;
- implementing a further substantial reduction in our operations and workforce (we reduced our workforce by approximately 25% on July 20, 2000 and an additional approximately 21% on August 25, 2000); and
- selling or merging the Company.

There can be no assurance that we will be able to implement any of these strategies. The failure to accomplish one or more of these strategies would materially adversely effect our financial performance and liquidity. We may also be forced to liquidate or file for reorganization under the federal bankruptcy laws.

**AMENDMENTS TO OUR OUTSTANDING PREFERRED STOCK ARE LIKELY TO CAUSE SUBSTANTIAL ADDITIONAL DILUTION TO HOLDERS OF TITAN'S COMMON STOCK**

Because the market price of our common stock has declined significantly since the dates of issuance of the Series A, Series B and Series C Convertible Preferred Stock, and because the conversion prices of the Series A, Series B and Series C Convertible Preferred Stock were recently amended to be equal to the lesser of a fixed conversion price or a variable conversion price, the overall effect of these changes was to significantly reduce the respective conversion prices of the Series A, Series B and Series C Convertible Preferred Stock from their prior levels, resulting in a corresponding significant increase in the number of shares of our common stock that may be issued upon conversion. If all shares of Series A, Series B and Series C Convertible Preferred Stock were converted

as of August 14, 2000, the effective date of the amendments (assuming the Series B initial reset date was accelerated to August 14, 2000), we would have been required to issue a total of 14,865,775 additional shares of our common stock. As a result, the amendments to the Series A, Series B and Series C Convertible Preferred Stock will result in substantial dilution to the holders of our common stock. Even if the price of our common stock rises above the fixed conversion prices of the Series A, Series B and Series C Convertible Preferred Stock, the method of calculating the conversion prices for each series of Preferred Stock will prevent the conversion price from exceeding 130% of the previous conversion price for the Series A Convertible Preferred Stock, \$1.75 for the Series B Convertible Preferred Stock, and \$0.43 for the Series C Convertible Preferred Stock.

If, on the other hand, the market price of our common stock continues to decline, the number of shares issuable upon conversion of the Series A, Series B and Series C Convertible Preferred Stock will continue to increase, resulting in further dilution to the holders of our common stock. The issuance and resale of significant additional shares of common stock may result in further price declines.

#### WE FACE POSSIBLE DELISTING FROM THE NASDAQ SMALLCAP MARKET

Our common stock is currently listed on the Nasdaq SmallCap Market. Our net tangible assets, however, fell below the minimum required by Nasdaq, primarily as a result of our Series A and Series B Convertible Preferred Stock being classified as mezzanine debt rather than equity. Nasdaq notified us of its intention to delist our common stock from the Nasdaq SmallCap Market unless we provided Nasdaq with a specific plan as to how we expect to achieve and sustain compliance with all Nasdaq SmallCap Market listing requirements. Subsequent to Nasdaq's notification, our Series A and Series B preferred stockholders agreed to modify the terms of their preferred stock so that it would be characterized under generally accepted accounting principles as capital, rather than as mezzanine instruments, which has had the effect of increasing our net tangible assets. Management, however, is currently evaluating the accounting consequences of the amendments to the Series A, Series B and Series C Convertible Preferred Stock in order to determine the impact, if any, on the calculation of our net tangible assets for Nasdaq compliance purposes. Nasdaq also inquired about the explanatory paragraph in the report rendered by the our independent public accountant regarding the going concern issues discussed above. We advised Nasdaq that the explanatory paragraph discussing going concern issues arose principally because our primary financing source, our line of credit with Wells Fargo, expired on April 10, 2000 and at year-end we did not have another facility available to refinance this debt and we continued to incur losses from operations. Although we have received an extension of our credit facility with Wells Fargo until September 18, 2000, there can be no assurance that we will be able to secure a replacement credit facility by the extended termination date, obtain an additional extension beyond September 18, 2000, or that we can comply with the financial and other covenants as modified.

Currently, Nasdaq has not advised us whether our plan of compliance was acceptable to maintain our Nasdaq listing. In light of our current situation, we are unsure whether Nasdaq will take action to delist our securities and, if so, what the timing of such an action would be.

In addition, our two independent directors announced their resignations from the Board of Directors on August 18, 2000. Although we are actively seeking other independent directors to fill the vacancies on our Board of Directors, there can be no assurance that we will be successful in this regard, particularly given our current financial difficulties. Because Nasdaq's continued maintenance criteria also requires a minimum of two independent directors, if we are unable to fill the vacancies created by the recent resignation of our two independent directors on a timely basis, we may be delisted from Nasdaq even if we meet other maintenance criteria.

Finally, on August 30, 2000, we received a letter from Nasdaq informing us that our common stock had failed to meet the minimum bid price of \$1.00 over the preceding 30 consecutive trading days, and that, as a result, we did not meet the maintenance criteria for continued listing on the Nasdaq SmallCap Market. Pursuant to this letter, Nasdaq has provided us 90 days, or until November 28, 2000, to comply with the minimum bid price requirement. If we are unable to comply with the minimum bid price requirement by that date, our common stock will be delisted at the opening of business on November 30, 2000.

If we fail to maintain our Nasdaq listing, the market value of our common stock may decline further and trading in our stock is likely to be materially adversely effected. Among other things, because our common stock would then constitute "penny stock" under the Securities Exchange Act of 1934, as amended, any broker engaging

in a transaction in our securities would be required to provide any customer with a risk disclosure document, disclosure of market quotations, if any, disclosure of the compensation of the broker-dealer and its salesperson in the transaction, and monthly account statements showing the market values of our securities held in the customer's accounts. The bid and offer quotation and compensation information must be provided prior to effecting the transaction and must be contained on the customer's confirmation. If brokers become subject to the "penny stock" rules when engaging in transactions in our securities, they would become less willing to engage in such transactions, thereby making it more difficult for our securityholders to sell their common stock, which may result in a decline in stock value.

#### WE HAVE A HISTORY OF LOSSES AND WE MAY LOSE MONEY IN THE FUTURE

We incurred losses of \$8.1 million in fiscal year 1999 and a loss of \$1,487,215 in the first quarter of 2000. Due to substantial adjustments in inventory levels and valuations and the establishment of a significant reserve in the second quarter of 2000, taken in conjunction with certain affiliated store receivables and motorcycle repossession and resale, we reported a loss of \$1,607,493 in the second quarter of 2000. We may continue to be unprofitable in the third quarter of 2000.

In light of our cash crisis, inability to finance full production, and reduction in workforce, we may incur additional losses in the future. To achieve and maintain profitability, we will need to generate an increased level of market acceptance for our products. Our success depends on our ability to meet the following objectives, none of which we may achieve:

- resolve our liquidity crisis;
- increase consumer awareness of our products;
- establish and maintain a reputation for high quality products;
- increase sales through our independent third party dealers;
- expand our dealer network; and
- finance these activities.

We cannot assure you that we will meet these objectives.

#### WE DEPEND HEAVILY ON THIRD PARTY PARTS SUPPLIERS AND ARE EXPERIENCING DIFFICULTIES WITH THEM

We operate primarily as an assembler and rely heavily on a number of major component manufacturers to supply us with almost all of our parts. Any significant adverse variation in quantity, quality or cost would adversely affect our volume and cost of production until we could identify alternative sources of supply. In addition, due to our lack of operating capital, we are receiving increasing pressure for additional payments from trade creditors, and are encountering difficulties in obtaining necessary parts from these suppliers to manufacture our motorcycles.

#### WE DEPEND HEAVILY ON INDEPENDENT THIRD PARTY DEALERS AND OUR RESULTS OF OPERATIONS COULD BE NEGATIVELY IMPACTED IF THE DEALERS FAIL TO ADEQUATELY PROMOTE OUR PRODUCTS, IMAGE AND NAME

Our products are sold primarily through independent dealers. As a result, we are unable to fully control the presentation, delivery and service of our products to the final customer. We depend heavily on our dealers' willingness and ability to promote our products, image and name. Failures by independent third party dealers to adequately promote our products could negatively affect our results of operations. As a result of our financial situation, we are losing dealerships operated by principals of the Company, and may lose others. This would materially adversely affect our ability to continue in business.

COMPLICATIONS IN ESTABLISHING AND INTEGRATING OUR NEW "PHOENIX BY TITAN" LINE OF MOTORCYCLES COULD MATERIALLY ADVERSELY AFFECT OUR EXPENSES, GROSS MARGINS AND OPERATING RESULTS

We introduced our "Phoenix by Titan" line of heavyweight motorcycles in 1999. Unlike our custom motorcycles, we manufacture these motorcycles in four models through an assembly line process. Six standard customization packages are available through the dealerships for each of the four models. While initial orders have been substantial, there can be no assurance that we will be able to accomplish the following goals:

- effectively manage any ongoing difficulties that we may experience;
- successfully adapt to an assembly line manufacturing process;
- gain or maintain consumer acceptance of this product line; and
- finance the production of the motorcycles.

Also, we cannot assure you that this line, which is less expensive, will not take sales away from our higher end custom motorcycles or that we will not face other difficulties with this line. Any of these issues could materially adversely affect our expenses, gross margins and operating results.

BECAUSE WE SELL A DISCRETIONARY PRODUCT, A DOWNTURN IN THE ECONOMY COULD NEGATIVELY AFFECT OUR GROWTH AND PROFITABILITY

Motorcycles in the high-end customized heavyweight market are discretionary purchase items. A recession or economic downturn may reduce consumer spending on these types of items and negatively affect our growth and profitability. An economic downturn could result from a number of factors outside of our control, including:

- employment levels;
- business conditions;
- interest rates;
- inflation levels; and
- taxation rates.

COMPETITION IN OUR MARKET HAS INCREASED SUBSTANTIALLY AND MAY RESULT IN PRICE REDUCTIONS, REDUCED GROSS MARGINS AND A LOSS OF OUR MARKET SHARE

While we operate in the high-end segment of the heavyweight cruiser market, the overall heavyweight cruiser market has recently experienced a substantial increase in production capacity and new entrants. Some of our competitors have technical, production, personnel and financial resources that exceed ours and we cannot assure you that the competition will not materially adversely affect our business, financial condition or results of operations. The increased competition could result in price reductions, reduced gross margins and a loss in our market share.

Major competitors in the heavyweight cruiser market are:

- Harley-Davidson(TM), the heavyweight cruiser market leader, which is reportedly increasing its capacity to over 160,000 units from approximately 148,000 units;
- BMW, which entered the segment in 1997 with their "R1200C" model;
- Excelsior-Henderson, which entered the market with their "Super X" model; and
- Polaris, which recently entered the market with their "Victory V92C" model.

OUR PRODUCTS COULD CONTAIN DEFECTS CREATING PRODUCT RECALLS AND WARRANTY CLAIMS THAT COULD MATERIALLY ADVERSELY AFFECT OUR FUTURE SALES AND PROFITABILITY

Our products could contain unforeseen defects. These defects could create product recalls or warranty claims that could increase our costs and affect profitability. Significant and continuous defects also could negatively impact the goodwill and quality associated with our brand name. Defects also could give rise to litigation resulting in liability for judgments that could have a significant impact on our business, operations and financial condition. Product recalls resulting from unforeseen defects could subject us to a significant financial commitment and have a significant impact on our business, operations and financial condition.

WE DEPEND ON FOREIGN VENDORS FOR CERTAIN COMPONENT PARTS, WHICH EXPOSES US TO RISKS THAT COULD MATERIALLY AND ADVERSELY AFFECT OUR OPERATING RESULTS

We depend on foreign vendors for certain component parts, which exposes us to additional risks. Our reliance on foreign vendors exposes us to risks such as:

- currency fluctuations that may adversely affect the value of goods purchased;
- trade restrictions;
- delays in shipping; - changes in tariffs; and
- difficulties in enforcing supply arrangements.

The occurrence of any of these risks could materially and adversely affect our operating results.

WE MAY ATTEMPT TO ESTABLISH SALES OPERATIONS IN FOREIGN MARKETS, WHICH REQUIRES SIGNIFICANT MANAGEMENT ATTENTION AND FINANCIAL RESOURCES, AND THIS STRATEGY MAY NOT BE SUCCESSFUL

If we can obtain necessary financing to sustain our operations, we may attempt to establish sales operations in foreign markets; however, we cannot assure you that we will be able to successfully manage the inherent risks and complications associated with operating in foreign markets.

These risks and complications of operating in foreign markets include the following:

- selecting and monitoring dealers;
- establishing effective dealer training;
- transporting inventory;
- achieving market acceptance of our products;
- parts availability;
- changes in diplomatic and trade relationships;
- tariffs;
- currency exchange rate; and
- unexpected changes in regulatory requirements.

WE ARE SUBJECT TO VARIOUS ENVIRONMENTAL REGULATIONS AND OUR FAILURE TO COMPLY COULD NEGATIVELY IMPACT OUR OPERATIONS

We are subject to various federal, state and local environmental regulations. Our failure to comply with these regulations could result in any one or more of the following:

- restrictions on our ability to expand or modify our current operations or facilities;
- significant expenditures in achieving compliance with the regulations;
- significant liabilities exceeding our available resources; and
- cessation of our operations.

Our business and assets could be materially adversely affected if environmental regulations require that we modify our facilities or otherwise limit our ability to conduct our operations. Any significant expenses incurred as a result of environmental liabilities could have a material adverse affect on our business, operating results and financial condition.

OUR BUSINESS WILL SUFFER IF WE ARE UNABLE TO KEEP OUR SENIOR EXECUTIVE OFFICERS AND KEY EMPLOYEES

We rely considerably on the abilities of Francis S. Keery, our Chairman and Chief Executive Officer, and Patrick Keery, our President. We also depend to a significant extent upon the performance of our executive management team. The unavailability or loss of services of any of these individuals, or the failure to attract and retain qualified personnel to replace them, could have a material adverse affect on our business. We only have a non-competition agreement with our Chief Financial Officer and we cannot assure you that his agreement will be enforceable or effective in retaining him. Also, we cannot assure you that our other executive officers will not leave us.

OUR FAILURE TO COMPLY WITH VARIOUS REGULATORY APPROVALS AND GOVERNMENTAL REGULATIONS COULD NEGATIVELY IMPACT OUR OPERATIONS

Our motorcycles must comply with certain governmental approvals and certifications regarding noise, emissions and safety characteristics. Our failure to comply with these requirements could prevent us or delay us from selling our products, which would have a significant negative impact on our operations.

OUR QUARTERLY RESULTS MAY FLUCTUATE SIGNIFICANTLY, WHICH MAY CAUSE VOLATILITY IN OUR STOCK PRICE

Our quarterly operating results may fluctuate significantly as a result of a variety of factors, many of which are outside of our control. These factors include:

- manufacturing delays;
- the amount and timing of orders from dealers;
- disruptions in the supply of key components and parts;
- seasonal variations in the sale of our products;
- general economic conditions;
- liquidity issues; and
- establishment of reserves.

WE COULD BE REQUIRED TO REDEEM OUR SERIES A, SERIES B AND SERIES C CONVERTIBLE PREFERRED STOCK AT A PREMIUM, WHICH WOULD REQUIRE A LARGE EXPENDITURE OF CAPITAL AND COULD HAVE A MATERIAL ADVERSE AFFECT ON OUR FINANCIAL CONDITION

The holders of our Series A, Series B and Series C Convertible Preferred Stock have the right to require us to redeem their Preferred Stock upon the occurrence of certain events. The redemption of our Series A, Series B or Series C Convertible Preferred Stock would require a large expenditure of capital funds to satisfy the redemption. However, the holders of the Series A and Series B Convertible Preferred Stock agreed to amend the terms and conditions of the Series A and Series B Convertible Preferred Stock through the filing of an amended and restated certificate of designations. The amended and restated certificates of designation were filed with the Secretary of State of the State of Nevada on July 16, 2000. The amendments allow us to deliver a control notice to the Series A or Series B holders against their delivery of a redemption notice if the event or circumstances giving rise to the redemption notice are outside of our control. The delivery of a control notice will permit us to adjust the conversion price of the Series A or Series B Convertible Preferred Stock in lieu of redemption. Although we may not be forced to redeem the entire amount of the Series A and Series B Convertible Preferred Stock because of these provisions, the reduction in the conversion price would result in a substantial increase in the number of shares of common stock that would be issued upon conversion of the Series A and Series B Convertible Preferred Stock.

## WE MAY ISSUE ADDITIONAL STOCK AND DILUTE YOUR OWNERSHIP PERCENTAGE

Certain events over which you have no control could result in the issuance of additional shares of our common stock, which would dilute your ownership percentage. We may issue additional shares of common stock or preferred stock:

- to raise additional capital or finance acquisitions;
- upon the exercise or conversion of outstanding options, warrants and shares of convertible preferred stock; or
- in lieu of cash payment of dividends.

As of August 14, 2000, the effective date of the amendments to the Series A, Series B, and Series C Convertible Preferred Stock, the Series A, Series B, and Series C Convertible Preferred Stock were convertible into 14,865,775 additional shares of common stock (assuming the Series B initial reset date was accelerated to August 14, 2000). The conversion of these securities will dilute your percentage ownership of common stock. These securities, unlike common stock, also provide for antidilution protection upon the occurrence of stock dividends, combinations, capital reorganizations and other events. If one or more of these events occurs, the number of shares of common stock that may be acquired upon conversion or exercise would increase.

In addition, you could face further dilution of your ownership percentage as a result of a decline in the market price of our common stock, which would result in an increase in the number of shares of common stock issuable upon conversion of the Series A, Series B or Series C Convertible Preferred Stock, or in the event of certain defaults under the Series A, Series B or Series C Preferred Stock, which could result in a dilution adjustment. Any such event could adversely affect the price of our stock and our ability to raise additional capital.

## OUR GOVERNING DOCUMENTS AND NEVADA LAW CONTAIN PROVISIONS THAT COULD PREVENT TRANSACTIONS IN WHICH YOU WOULD RECEIVE A PREMIUM FOR YOUR STOCK

Our Articles of Incorporation and the Nevada Revised Statutes contain provisions that could have the effect of delaying, deferring, or preventing a change in control and the opportunity to sell your shares at a premium over current market prices. Although these provisions are intended to protect us and our stockholders from unwanted takeovers, their effect could hinder or prevent transactions in which you might otherwise receive a premium for your common stock over then-current market prices, and may limit your ability to approve transactions that may be in your best interests. As a result, the mere existence of these provisions could adversely affect the price of our common stock.

## FORWARD LOOKING STATEMENTS

This prospectus contains or incorporates forward-looking statements including statements regarding, among other items, our ability to obtain additional capital, our prospects of replacing our line of credit with Wells Fargo, our efforts in attempting to achieve profitability, our business strategy, and anticipated trends in our business. We may make additional written or oral forward-looking statements from time to time in filings with the Securities and Exchange Commission or otherwise. When we use the words "believe," "expect," "anticipate," "project" and similar expressions, this should alert you that this is a forward-looking statement. Forward-looking statements speak only as of the date the statement is made. These forward-looking statements are based largely on our expectations. They are subject to a number of risks and uncertainties, some of which cannot be predicted or quantified and are beyond our control. Future events and actual results could differ materially from those set forth in, contemplated by, or underlying the forward-looking statements. Statements in this prospectus, and in documents incorporated into this prospectus, including those set forth in "Risk Factors," describe factors, among others, that could contribute to or cause these differences. In light of these risks and uncertainties, there can be no assurance that the forward-looking information contained in this prospectus will in fact transpire or prove to be accurate. All subsequent written and oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by this section.

## USE OF PROCEEDS

We will not receive any proceeds from the sale of any shares offered by this prospectus.

## SELLING STOCKHOLDERS

The following table provides information about the selling stockholders as of the filing of this Registration Statement. The shares offered by this prospectus may be offered from time to time by the selling stockholders named below, or by pledgees, donees, transferees or other successors in interest to them.

The shares shown as offered by Esquire Trade & Finance Inc. and Celeste Trust Reg. under this prospectus may be issued upon conversion of the \$750,000 in principal amount of 12% Convertible Debentures and exercise of warrants acquired by the holders of the Convertible Debentures from us in a private placement completed on August 14, 2000. Under the terms of the 12% Convertible Debentures and the related warrants, no selling stockholder may convert the 12% Convertible Debentures or exercise warrants to the extent that conversion or exercise would cause the holder's beneficial ownership of our common stock (excluding shares underlying unconverted Debentures and unexercised warrants) to exceed 9.99% of the outstanding shares of common stock. The \$750,000 in principal amount of 12% Convertible Debentures and the related warrants were sold to the holders of our Series C Convertible Preferred Stock. The beneficial ownership limitation described in the preceding sentence applies to these securities as well. The shares of common stock issuable upon conversion of the Series C Convertible Preferred Stock and exercise of those related warrants were previously registered on Registration Statement No. 333-41868 filed with the Commission on August 25, 2000.

- (1) Represents the number of shares issuable and issued and unsold upon: (i) conversion of the Series C Convertible Preferred Stock, including two years of accrued dividends thereon, which dividends are payable at our option in shares of common stock, at an assumed variable conversion price of \$0.24 per share (the conversion price in effect on September 7, 2000); (ii) upon conversion of \$750,000 in principal amount of our 12% Convertible Debentures issued to the holders of the Series C Convertible Preferred Stock on August 14, 2000 at an assumed variable conversion price of \$0.24 and including accrued interest thereon through August 31, 2002 (the maturity date); and (iii) upon the exercise of warrants issued to these stockholders in June 2000 and in connection with the sale of the 12% Convertible Debentures on August 14, 2000.
- (2) In accordance with the Registration Rights Agreement between us and Esquire and Celeste, the number of shares shown as offered by this prospectus represents 200% of the number of shares issuable upon conversion of the 12% Convertible Debentures (and interest thereon through the maturity date) as described in clause (ii) of note (1) above, plus the shares issuable upon exercise of the related warrants issued in August 2000.
- (3) The actual conversion price is applicable to the 12% Convertible Debentures and will be calculated using a formula based on a variable conversion price tied to the market price of our common stock and may be lower than the initial fixed conversion rate. The actual number of shares of common stock issuable upon the conversion of the 12% Convertible Debentures and

exercise of the related warrants is therefore subject to adjustment and could be materially more than the number estimated in the table. This variation is due to factors that cannot be predicted by us at this time. The most significant of these factors is the future market price of our common stock.

- (4) This assumes that all shares of common stock previously registered under Registration Statement No. 333-41868 filed with the Commission on August 25, 2000 are sold.

As of the date of this prospectus, the selling stockholders do not hold any other securities in Titan other than the shares being offered under this prospectus, the Series C Convertible Preferred Stock or shares issuable upon conversion of the Series C Convertible Preferred Stock and the warrants described above. None of the selling stockholders has had any material relationship with us within the past three years.

#### DESCRIPTION OF SECURITIES

We are authorized to issue up to 90,000,000 shares of common stock and 10,000,000 shares of preferred stock. As of September 5, 2000, 19,307,064 shares of common stock were issued and outstanding. Additionally, as of September 5, 2000, we had outstanding options to purchase 1,285,000 shares of our common stock, warrants to purchase 3,252,733 shares of our common stock, 3,824 shares of our Series A Convertible Preferred Stock, 2,000 shares of our Series B Convertible Preferred Stock and 1,230 shares of our Series C Convertible Preferred Stock.

Our Board of Directors has the authority, without further action by the stockholders, to issue a total of up to 9,992,700 additional preferred shares in one or more series and to fix the rights, preferences, privileges and restrictions granted to or imposed upon any series of unissued preferred shares and to determine the number of shares constituting any series and the designation of the series, without any further vote or action by the stockholders.

The following summary of certain provisions of the common stock and preferred shares does not purport to be complete and is subject to, and is qualified in its entirety by, our Articles of Incorporation, as amended, Restated Bylaws, our Certificates of Designations with respect to our Series A, Series B and Series C Convertible Preferred Stock, and by the provisions of applicable law.

#### COMMON STOCK

The holders of our common stock are entitled to one vote per share on all matters on which stockholders are entitled to vote. Subject to the rights of holders of any class or series of shares, including preferred shares, having a preference over the common stock as to dividends or upon liquidation, the holders of our common stock are entitled to dividends as may be declared by our Board of Directors out of funds that are lawfully available, and are entitled upon liquidation to receive pro rata the assets that are available for distribution to holders of common stock. Holders of the common stock have no preemptive, subscription, or conversion rights. The common stock is not subject to assessment and has no redemption provisions.

#### SERIES A CONVERTIBLE PREFERRED STOCK

We had 3,824 shares of Series A Convertible Preferred Stock authorized, issued and outstanding as of September 5, 2000. The Series A Convertible Preferred Stock is currently convertible at any time into shares of our common stock at a variable conversion price \$0.5147, which represents 90% of the closing bid price of our common stock for the ten days prior to August 14, 2000, the revised initial reset date. On September 17, 2000, and every two months thereafter, the conversion price will be adjusted to be the lesser of (a) 130% of the prior conversion price or (b) 90% of the average closing bid price for the ten days prior to such adjustment date. The conversion price is subject to further adjustment under certain other circumstances, including our inability to provide the Series A Convertible Preferred Stockholders with common stock certificates on a timely basis after receiving notice of their conversion, and our failure to pay any applicable redemption price when due. Upon an adjustment of the conversion price, the number of shares into which the Series A Convertible Preferred Stock may be converted is also adjusted. The

number of shares of common stock underlying the Series A Convertible Preferred Stock is also subject to adjustment for stock splits, stock dividends, combinations, capital reorganizations and similar events relating to our common stock.

However, in no event will the Series A Convertible Preferred Stockholders be permitted to convert if the number of shares of common stock issuable upon conversion would result in beneficial ownership by a holder of the Series A Convertible Preferred Stock and its affiliates of more than 4.9% of the outstanding shares of common stock.

Dividends at the rate of \$60 per annum per share are payable in cash or, at our option, may be added to the value of the Series A Convertible Preferred Stock subject to conversion and to the \$1,000 per share liquidation preference of the Series A Convertible Preferred Stock.

We have the right to redeem the Series A Convertible Preferred Stock at a premium, and under some circumstances, at the market price of the common stock into which the Series A Convertible Preferred Stock would otherwise be convertible. The holders of the Series A Convertible Preferred Stock also have the right to require us to redeem all or some of their Series A Convertible Preferred Stock at a premium or at market under the following circumstances:

- there is no closing bid price reported for our common stock for five consecutive trading days;
- our common stock ceases to be listed for trading on the Nasdaq SmallCap Market;
- the holders of our Series A Convertible Preferred Stock are unable, for 30 or more days (whether or not consecutive) to sell their common stock issuable upon conversion of the Series A Convertible Preferred Stock pursuant to an effective registration statement;
- we default under any of the agreements relating to the sale of the Series A Convertible Preferred Stock;
- certain business combination events;
- the adoption of any amendment to our Articles of Incorporation materially adverse to the holders of the Series A Convertible Preferred Stock without the consent of the holders of a majority of the Series A Convertible Preferred Stock; and
- the holders of the Series A Convertible Preferred Stock are unable to convert all of their shares because of limitations under exchange or market rules that require stockholder approval of certain stock issuances.

However, the terms and conditions of the Series A Convertible Preferred Stock have been amended to allow us to deliver a control notice to the Series A holders against their delivery of a redemption notice if the event or circumstances giving rise to the redemption notice are outside of our control. The delivery of a control notice will permit us to adjust the conversion price of the Series A Convertible Preferred Stock in lieu of redemption. Effectively, this permits us to classify the Series A Convertible Preferred Stock as equity rather than mezzanine instruments in accordance with generally accepted accounting principles.

#### SERIES B CONVERTIBLE PREFERRED STOCK

We had 2,000 shares of Series B Convertible Preferred Stock authorized, issued and outstanding as of September 5, 2000. The Series B Convertible Preferred Stock is currently convertible at any time into shares of our common stock at an initial fixed conversion price of \$1.75. Commencing January 9, 2001, the conversion price will be adjusted every three months to be the lesser of (a) \$1.75 or (b) the average closing bid price for the ten days prior to such adjustment date. The conversion price is subject to further adjustment under certain other circumstances, including our inability to provide the holders of Series B Convertible Preferred Stock with common stock certificates on a

timely basis after receiving notice of their conversion, and our failure to pay any applicable redemption price when due. Upon an adjustment of the conversion price, the number of shares into which the Series B Convertible Preferred Stock may be converted is also adjusted. The number of shares of common stock underlying the Series B Convertible Preferred Stock is also subject to adjustment for stock splits, stock dividends, combinations, capital reorganizations and similar events relating to our common stock.

However, in no event will the holders of the Series B Convertible Preferred Stock be permitted to convert if the number of shares of common stock issuable upon conversion would result in beneficial ownership by a holder of Series B Convertible Preferred Stock and its affiliates of more than 4.9% of the outstanding shares of our common stock.

Dividends at the rate of \$60 per annum per share are payable in cash or, at our option, may be added to the value of the Series B Convertible Preferred Stock subject to conversion and to the \$1,000 per share liquidation preference of the Series B Convertible Preferred Stock.

We have the right to redeem the Series B Convertible Preferred Stock at a premium, and under some circumstances, at the market price of the common stock into which the Series B Convertible Preferred Stock would otherwise be convertible. The holders of the Series B Convertible Preferred Stock also have the right to require us to redeem all or some of their Series B Convertible Preferred Stock at a premium or at market under the following circumstances:

- there is no closing bid price reported for our common stock for five consecutive trading days;
- our common stock ceases to be listed for trading on the Nasdaq SmallCap Market;
- the holders of our Series B Convertible Preferred Stock are unable, for 30 or more days (whether or not consecutive) to sell their common stock issuable upon conversion of the Series B Convertible Preferred Stock pursuant to an effective registration statement;
- we default under any of the agreements relating to the sale of the Series B Convertible Preferred Stock;
- certain business combination events;
- the adoption of any amendment to our Articles of Incorporation materially adverse to the holders of the Series B Convertible Preferred Stock without the consent of the holders of a majority of the Series B Convertible Preferred Stock; and
- the holders of the Series B Convertible Preferred Stock are unable to convert all of their shares because of limitations under exchange or market rules that require stockholder approval of certain stock issuances.

However, the terms and conditions of the Series B Convertible Preferred Stock have been amended to allow us to deliver a control notice to the Series B holders against their delivery of a redemption notice if the event or circumstances giving rise to the redemption notice are outside of our control. The delivery of a control notice will permit us to adjust the conversion price of the Series B Convertible Preferred Stock in lieu of redemption. Effectively, this permits us to classify the Series B Convertible Preferred Stock as equity rather than mezzanine instruments in accordance with generally accepted accounting principles.

#### SERIES C CONVERTIBLE PREFERRED STOCK

As of September 5, 2000 we had 1,300 shares of Series C Convertible Preferred Stock authorized, all of which were issued, 70 of which had been converted and were not subject to reissuance and 1,230 of which remained outstanding. The outstanding Series C Convertible Preferred Stock is currently convertible at any time into shares of our common stock at a variable conversion price. The conversion price is equal to the lesser of a fixed conversion price equal to

70% of the average of the closing bid price for the five trading days immediately preceding August 14, 2000, or \$0.43 per share, or a variable conversion price equal to 70% of the average of the closing bid price for the lowest 5 trading days (which need not be consecutive) during the 22 consecutive trading days ending on the trading day immediately preceding the relevant conversion date. As of September 7, 2000, the variable conversion price was \$0.24 per share.

The number of shares of common stock underlying the Series C Convertible Preferred Stock is subject to adjustment for stock splits, stock dividends, capital reorganizations and similar events relating to our common stock. Subject to the limit referred to above, the Series C Convertible Preferred Stock converts automatically on the second anniversary of the date of the issuance.

Following effectiveness of this registration statement, we may compel the conversion of any or all of the outstanding Series C Convertible Preferred Stock at the conversion price in effect if for any 20 consecutive trading days both (a) the closing bid price of our common stock is greater than \$1.90 per share, and (b) the average daily trading volume of our common stock is at least 50,000 shares per trading day.

However, in no event will the Series C Convertible Preferred Stockholders be permitted to convert if the number of shares of common stock issuable upon conversion would result in beneficial ownership by a holder of Series C Convertible Preferred Stock and its affiliates of more than 9.99% of the outstanding shares of common stock.

Dividends at the rate of 12% per annum are payable quarterly or on conversion of the Series C Convertible Preferred Stock in cash or, at our option, in shares of our common stock based on the conversion rate in effect on the relevant date.

Subject to certain restrictions in a subordination agreement with our primary lender, Esquire and Celeste each have the right to require us to redeem the Series C Convertible Preferred Stock at a premium upon the occurrence of any of the following events:

- The amount of common stock reserved for issuance upon conversion of the Series C Convertible Preferred Stock is less than 150% of the number of shares of common stock issuable upon potential conversion of the Series C Convertible Preferred Stock for 10 consecutive trading days and we fail to increase the reserved amount above the 150% threshold for 90 days thereafter;
- We are unable to issue sufficient shares of common stock upon conversion of the Series C Convertible Preferred Stock as a result of Nasdaq Rule 4310(c)(25)(H)(i) or Rule 4460(i)(1); or
- We are unable to timely deliver certificates representing the common stock issuable on conversion of the Series C Convertible Preferred Stock.

#### CONVERTIBLE DEBENTURES

On August 14, 2000, we sold \$750,000 in principal amount of our 12% Convertible Debentures to the holders of our Series C Convertible Preferred Stock. Unless and until shareholder approval is obtained, the Debentures are convertible at any time into a maximum of 3,861,413 shares of Titan's common stock. The Debentures are convertible at the lower of a fixed conversion price or a variable conversion price. The fixed conversion price is equal to 70% of the average of the closing bid price of our common stock for the five trading days immediately preceding the closing date, or \$0.43 per share. The variable conversion price is equal to 70% of the average of the five lowest closing bid prices (which need not be consecutive days) of our common stock during the 22 trading days immediately preceding the applicable conversion date. As of September 7, 2000, the variable conversion price was \$0.24 per share. The conversion price and the number of shares of common stock underlying the Debentures are subject to adjustment for stock splits, stock dividends, combinations, capital reorganizations and similar events relating to our common stock.

In no event, however, will the holders of the 12% Convertible Debentures be permitted to convert if the

number of shares of common stock issuable upon conversion would result in beneficial ownership by such holder and their affiliates of more than 9.99% of the outstanding shares of common stock of the

The Debentures are secured by the grant of a security interest in all of our assets, subject to a senior security interest in favor of Wells Fargo Credit, Inc., our senior lender. The Debentures are redeemable at any time by the holders in the event we default on our obligations or covenants. Each of the following constitutes an "Event of Default" pursuant to the terms of the Debenture:

- We default in the payment of principal or interest on the Debentures and continue to do so for a period of five business days;
- Any of the representations or warranties that we make in the Debentures, the Securities Purchase Agreement, the Registration Rights Agreement or in any certificate or financial or other written statements that we furnish in connection with the sale of the Debentures are deemed to be false or misleading in any material respect at the time made;
- We fail to authorize or to cause our transfer agent to issue shares of common stock upon exercise by the holder of the conversion rights in accordance with the terms of the Debentures, fail to transfer or to cause our transfer agent to transfer any certificate for shares of common stock issued to the holder upon conversion of the Debentures and when required by the Debentures or the Registration Rights Agreement, and such transfer is otherwise lawful, or fail to remove any restrictive legend on any certificate or fail to cause our transfer agent to remove such restricted legend, in each case where such removal is lawful, as and when required by the Debentures, or the Registration Rights Agreement, and any such failure continues uncured for five business days;
- We fail to perform or observe, in any material respect, any other covenant, term, provision, condition, agreement or obligation of the Debentures and such failure continues uncured for a period of 30 days after written notice from the holder;
- We fail to perform or observe, in any material respect, any covenant, term, provision, condition, agreement or obligation under the Securities Purchase Agreement or the Registration Rights Agreement and such failure continues uncured for a period of 30 days after written notice from the holder (other than a failure to cause the registration statement to become effective no later than the required effective date, as defined and provided in the Registration Rights Agreement, as to which no such cure period shall apply);

#### WARRANTS

We issued warrants in connection with the offering of our Series A, Series B and Series C Convertible Preferred Stock as well as our 12% Convertible Debentures. We issued warrants to purchase 372,967 shares of common stock to the Series A Convertible Preferred Stockholders, of which 300,000 have been exercised, warrants to purchase 250,000 shares of common stock to the Series B Convertible Preferred Stockholders, all of which remain fully exercisable, warrants to purchase 1,642,106 shares of common stock to the Series C Convertible Preferred Stockholders, all of which remain fully exercisable, and warrants to purchase 1,025,160 shares of common stock to the holders of our 12% Convertible Debentures, which are the same investors as the holders of our Series C Convertible Preferred Stock. We also issued warrants to purchase 250,000 shares of common stock to Reedland Capital Partners and its designees as partial compensation for their assistance in placing the Series A Convertible Preferred Stock and warrants to purchase 12,500 shares to certain designees of Reedland Capital Partners as partial compensation for their assistance in placing the Series B Convertible Preferred Stock. These warrants remain fully exercisable. The exercise price of the warrants associated with the Series A and Series B transaction have been repriced to \$1.00. The exercise price of the warrants issued to the Series C Convertible Preferred Stockholders is \$1.69 with respect to five-sixths of the shares and \$2.26 with respect to the balance of the shares covered by the warrants. The exercise price of the warrants associated with the 12% Convertible Debentures is equal to 105% of the market price of our common stock as of the date of issuance, or \$.643125 per share. Finally, we issued warrants to purchase 100,000 shares of common stock, at an exercise price of \$1.69 per share, to the Series A and Series B

Convertible Preferred Stockholders in exchange for their waiver of certain terms and conditions related to the issuance of the Series C Convertible Preferred Stock. The warrants described above, representing in the aggregate the right to purchase 2,102,573 shares of common stock, are the only warrants we currently have outstanding. The warrants associated with the Series A transaction expire on September 17, 2004, the warrants associated with the Series B transaction expire on March 9, 2005, the warrants associated with the Series C transaction expire on June 30, 2005 and the warrants associated with the 12% Convertible Debentures expire on August 31, 2005.

In no event will holders of the Series C warrants or the warrants issued to the holders of our 12% Convertible Debentures be permitted to convert if the number of shares of common stock issuable upon exercise would result in beneficial ownership by the holder and its affiliates of more than 9.99% of the outstanding shares of our common stock. In no event will holders of the Series A and Series B Convertible Preferred Stockholders be permitted to exercise their warrants if the number of shares of common stock issuable upon exercise would result in beneficial ownership by the holder and its affiliates of more than 4.9% of the outstanding shares of our common stock.

The exercise price and number of shares of common stock issuable upon exercise of the warrants held by the Series A, Series B and Series C Convertible Preferred Stockholders and the holders of our 12% Convertible Debentures are subject to adjustment in certain events, including events of default that are similar to those described above.

#### TRANSFER AGENT AND REGISTRAR

The Transfer Agent and Registrar for our common stock is Signature Stock Transfer, Inc.

#### CHARTER PROVISIONS AND EFFECTS OF NEVADA LAW

Our Articles of Incorporation authorize our Board of Directors to issue up to 10,000,000 shares of preferred stock from time to time in one or more designated series. Our Board of Directors, without approval of the stockholders, is authorized to establish the voting powers, designations, preferences, limitations, restrictions and relative rights of each series of preferred stock, including voting powers, preferences and relative rights that may be superior to our common stock. As of September 6, 2000, 4,000 shares of preferred stock had been designated Series A Convertible Preferred Stock, of which 3,973 shares were outstanding, 2,000 shares of preferred stock had been designated Series B Convertible Preferred Stock, all of which shares were outstanding, and 1,300 shares of preferred stock had been designated Series C Convertible Preferred Stock, 1,230 of which shares were outstanding.

Sections 78.3791 through 78.3793 of the Nevada Revised Statutes generally apply to any acquisition of outstanding voting securities of an issuing corporation which results in the acquiror owning more than 20% of the issuing corporation's then outstanding voting securities. An issuing corporation is any Nevada corporation with at least 200 stockholders, at least 100 of which are stockholders of record and Nevada residents, and which conducts business in Nevada.

The securities acquired in a covered acquisition are denied voting rights unless a majority of the security holders of the issuing corporation approve the granting of voting rights. If permitted by the issuing corporation's Articles of Incorporation or bylaws then in effect, voting securities acquired in the covered acquisition are redeemable by the issuing corporation at the average price paid for the securities by the acquiror if the acquiring person has not given timely notice to the issuing corporation or if the stockholders of the issuing corporation vote not to grant voting rights to the acquiring person's securities.

Unless the issuing corporation's Articles of Incorporation or bylaws then in effect provide otherwise, if the acquiring person acquired securities having 50% or more of the voting power of the issuing corporation's outstanding securities and the stockholders of the issuing corporation grant voting rights to the acquiring person, then any stockholders of the issuing corporation who voted against granting voting rights to the acquiring person may demand that the issuing corporation purchase, for fair value, all or any portion of his securities.

Our Articles of Incorporation and bylaws do not limit the effect of these provisions.

## PLAN OF DISTRIBUTION

The selling stockholders, their pledgees, donees, transferees or other successors in interest may from time to time offer and sell all or a portion of the shares in transactions on the Nasdaq SmallCap Market, or on any other securities exchange or market on which the common stock is listed or traded, in negotiated transactions or otherwise, at prices then prevailing or related to the then-current market price or at negotiated prices. The selling stockholders or their pledgees, donees, transferees or other successors in interest may sell their shares directly or through agents or broker-dealers acting as principal or agent, or in block trades or pursuant to a distribution by one or more underwriters on a firm commitment or best-efforts basis. To the extent required, the names of any agent or broker-dealer and applicable commissions or discounts and any other required information with respect to any particular offer will be set forth in an accompanying prospectus supplement. Each of the selling stockholders and their pledgees, donees, transferees or other successors in interest reserves the right to accept or reject, in whole or in part, any proposed purchase of the shares to be made directly or through agents.

Such broker-dealers, if any, may receive compensation in the form of discounts, concessions or commissions from the selling shareholder and/or the purchasers of the shares of common stock for whom such broker-dealers may act as agents to whom they may sell as principals, or both (which compensation, as a particular broker-dealer, might be in excess of customary commissions).

In connection with distributions of the shares, any selling stockholder may enter into hedging transactions with broker-dealers and the broker-dealers may engage in short sales of the shares in the course of hedging the positions they assume with the selling stockholder. Any selling stockholder also may sell the shares short and deliver the shares to close out such short positions. Any selling stockholder also may enter into option or other transactions with broker-dealers that involve the delivery of the shares to the broker-dealers, which may then resell or otherwise transfer such shares. Any selling stockholder also may loan or pledge the shares to a broker-dealer and the broker-dealer may sell the shares so loaned or upon a default may sell or otherwise transfer the pledged shares. The activities are limited by the purchase agreement between us and the selling stockholders during periods when the conversion price is subject to periodic adjustment.

The selling stockholders, any agents, dealers or underwriters that participate with the selling stockholders in the resale of the shares of common stock and the pledgees, donees, transferees or other successors in interest of the selling stockholders may be deemed to be "underwriters" within the meaning of the Securities Act, in which case any commissions received by such agents, dealers or underwriters and a profit on the resale of the shares of common stock purchased by them may be deemed underwriting commissions or discounts under the Securities Act.

In order to comply with the securities laws of particular states, if applicable, the shares may be sold only through registered or licensed brokers or dealers.

There is no assurance that the selling stockholders will sell any or all of the shares.

Pursuant to registration rights agreements between us and Advantage Fund II Ltd., Koch Investment Group Limited, Esquire Trade & Finance Inc., and Celeste Trust Reg., we have agreed to pay all expenses incurred in the registration of the shares, including the legal expenses incurred by such selling stockholders. However, we are not responsible for selling commissions and discounts, brokerage fees or any other expenses incurred by the selling stockholders.

We have agreed to indemnify each selling shareholder or their transferees or assignees against certain liabilities, including liabilities under the Securities Act of 1933, or to contribute to payments to which such selling shareholder or its pledgees, donees, transferees or other successors in interest may be required to make in respect thereof.

In addition to selling their common stock under this prospectus, the selling stockholders may:

- transfer their common stock in other ways not involving market makers or established trading markets, including by gift, distribution, or other transfer; or

- sell their common stock under Rule 144 of the Securities Act.

## ITEM 15. INDEMNIFICATION OF DIRECTORS AND OFFICERS

Subsection 2 of Section 78.7502 of Chapter 78 of the Nevada Revised Statutes (the "NRS") empowers a corporation to indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the corporation) by reason of the fact that he is or was a director, officer, employee or agent of the corporation or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation or other enterprise, against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by him in connection with such action, suit or proceeding if he acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interests of the corporation, and with respect to any criminal action or proceeding, had no reasonable cause to believe his conduct was unlawful. The termination of any action, suit or proceeding by judgment, order, settlement or conviction or upon a plea of nolo contendere or its equivalent does not, of itself, create a presumption that the person did not act in good faith or in a manner which he reasonably believed to be in or not opposed to the best interests of the corporation or that, with respect to any criminal action or proceeding, he had reasonable cause to believe his actions were unlawful.

Subsection 2 of Section 78.7502 of the NRS empowers a corporation to indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the corporation to procure a judgment in its favor by reason of the fact that such person acted in any of the capacities set forth above against expenses, including attorneys' fees, actually and reasonably incurred by him in connection with the defense or settlement of such action or suit if he acted under similar standards to those described above expect that no indemnification may be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable to the corporation or for amounts paid in settlement to the corporation unless and only to the extent that the court in which such action or suit was brought determines that, despite the adjudication of liability, such person is fairly and reasonably entitled to indemnity for such expenses as the court deems proper.

Section 78.7502 of the NRS further provides that to the extent a director or officer of a corporation has been successful in the defense of any action, suit or proceeding referred to in subsections (1) and (2) or in the defense of any claim, issue or matter therein, he shall be indemnified against expenses (including attorneys' fees) actually and reasonably incurred by him in connection therewith. Section 78.751 of the NRS provides that any indemnification provided for by Section 78.7502 of the NRS (by court order or otherwise) shall not be deemed

exclusive of any other rights to which the indemnified party may be entitled and that the scope of indemnification shall continue as to directors, officers, employees or agents who have ceased to hold such positions, and to their heirs, executors and administrators. Section 78.752 empowers the corporation to purchase and maintain insurance on behalf of a director, officer, employee or agent of the corporation against any liability asserted against him or incurred by him in any such capacity or arising out of his status as such whether or not the corporation would have the power to indemnify him against such liabilities under Section 78.7502.

Article 4.2 of our Articles of Incorporation provide that no director or officer of ours shall be personally liable to us or any of our stockholders for damages for breach of their fiduciary duty as a director or officer. This provision, however, does not eliminate or limit the liability of our directors or officers for:

- acts or omissions which involve intentional misconduct, fraud or a knowing violation of law, or
- the payment of distributions in violation of Nevada Revised Statutes Section 78.300.

Article VI of our bylaws provides for the indemnification of our directors, officers, employees and agents in a manner substantially identical in scope to that permitted under Section 78.7502 of the Nevada Revised Statutes. The Bylaws provide that the expenses of officers and directors incurred in defending any civil or criminal action, suit or proceeding shall be paid by us as they are incurred and in advance of the final disposition of the action, suit or proceeding, upon receipt of an undertaking by or on behalf of the director or officer to repay the amount if it is ultimately determined by a court of competent jurisdiction that he is not entitled to be indemnified.

#### ITEM 17. UNDERTAKINGS

The undersigned Registrant hereby undertakes:

- (1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement to include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;
- (2) That, for the purpose of determining any liability under the Securities Act, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof;
- (3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

The undersigned Registrant hereby undertakes that, for purposes of determining any liability under the Securities Act, each filing of the Registrant's Annual Report under Section 13(a) or Section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report under Section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the Registrant pursuant to the foregoing provisions, or otherwise, the Registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Registrant of expenses incurred or paid by a director, officer or controlling person of the Registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the Registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

Re: Issuance of Common Stock

Gentlemen:

We have acted as special Nevada counsel to Titan Motorcycle Co. of America, a Nevada corporation (the "Company"), in connection with its Registration Statement on Form S-3 (the "Registration Statement") filed under the Securities Act of 1933, as amended (the "1933 Act"), relating to the registration of, and covering the resale of the 8,805,910 shares of Common Stock issuable upon conversion of \$750,000 of 12% Convertible Debentures (the "Debentures") and exercise of warrants (the "Warrants") issued in connection with the Debentures (the "Shares"), such Debentures and Warrants having been issued to Esquire Trade & Finance, Inc., and Celeste Trust Reg. pursuant to that certain Securities Purchase Agreement, dated as of August 14, 2000, by and between the holders and the Company (the "Agreement").

In rendering the opinions set forth herein, we have limited our factual inquiry to (i) reliance on a certificate of the Secretary of the Company, (ii) reliance on the facts and representations contained in the Registration Statement, including, without limitation, those relating to the number of the Company's Common Shares, without par value, which are authorized, issued or reserved for issuance upon conversion or exercise of preferred shares, debentures, warrants and options, and (iii) such documents, corporate records and other instruments as we have deemed necessary or appropriate as a basis for the opinions expressed below, including, without limitation, a certificate issued by the Secretary of State of the State of Nevada dated September 7, 2000, attesting to the corporate existence of the Company in the State of Nevada, and verification with such Secretary of State with respect to the Company's continued valid existence as of the date hereof.

In our examination, we have assumed the genuineness of all signatures, the authenticity of all documents submitted to us as originals, the conformity to original documents of all documents submitted to us as certified or photostatic copies, and the authenticity of the originals of such copies. exemption from the registration requirements of the 1933 Act pursuant to Section 4(2) of the 1933 Act.

Based upon the foregoing, and subject to the qualifications set forth herein, we are of the opinion that the Shares to be issued upon the conversion of the Debentures and exercise of the Warrants will be validly issued, fully paid, and nonassessable.

The foregoing opinion is limited to the current internal laws of the State of Nevada (without giving effect to any conflict of law principles thereof), and we have not considered, and express no opinion on, the laws of any other jurisdiction. This opinion is based on the laws in effect and facts in existence on the date of this letter, and we assume no obligation to revise or supplement this letter should the law or facts, or both, change.
