**NOTICE OF ACTION TO BE TAKEN WITHOUT A MEETING**

November \_\_, 2013

Dear Stockholders:

The purpose of this letter and the enclosed Information Statement is to inform you that stockholders holding a majority of the voting power of the common stock of Stratus Media Group, Inc. (the "Company") have executed a written consent in lieu of a meeting to approve an amendment to our articles of incorporation to approve a reverse split of the Company's outstanding common stock at a ratio of between 1-for-50 and 1-for-100.

Our board of directors has authorized the amendment and stockholders holding a majority of the voting power of our common stock have executed a written consent approving the amendment. The consent we have received constitutes the only stockholder approval required under Nevada corporate law and our articles of incorporation and bylaws, as presently in effect. Pursuant to Rule 14c-2 of the Securities Exchange Act of 1934, as amended, this amendment will not become effective until at least 20 days after the accompanying information statement has been distributed to the stockholders of the Company.

**WE ARE NOT ASKING YOU FOR A PROXY AND  
YOU ARE REQUESTED NOT TO SEND US A PROXY.**

Because the written consent of holders of a majority of the voting power of our common stock approving the amendment satisfies all applicable stockholder voting requirements, we are not asking you for a Proxy; please do not send us one. We are furnishing this Information Statement to you solely to inform you of the approval of the amendment by the holders of the voting power of our common stock. No action is required by you.

**The Information Statement is for information purposes only — Please read it carefully.**

This Information Statement and other reports that we file with the SEC contain forward-looking statements about our business containing the words "believes," "anticipates," "expects" and words of similar import. These forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual results or performance to be materially different from the results or performance anticipated or implied by such forward-looking statements. Given these uncertainties, stockholders are cautioned not to place undue reliance on forward-looking statements. Except as specified in SEC regulations, we have no duty to publicly release information that updates the forward-looking statements contained in this Information Statement.

**IMPORTANT NOTICE REGARDING THE AVAILABILITY OF THE INFORMATION STATEMENT: THIS INFORMATION STATEMENT WILL BE AVAILABLE ON THE COMPANY'S WEB SITE AT WWW.STRATUSMEDIAGROUP.COM**

**DISSENTERS' RIGHT OF APPRAISAL**

Under Nevada law and our articles of incorporation and bylaws, no stockholder has any right to dissent to the Proposal, and no stockholder is entitled to appraisal of or payment for their shares of our stock.

**OUTSTANDING SHARES AND VOTING RIGHTS**

As of the Record Date, our authorized capitalization consisted of 1,000,000,000 shares of common stock (the "Common Stock"), of which 422,316,252 shares were issued and outstanding and 5,000,000 shares of Preferred Stock of which no shares are outstanding.

Each share of Common Stock entitles its holder to one vote on each matter submitted to the stockholders.

**CONSENTING STOCKHOLDERS**

The approval of the Proposal requires the consent of the holders of a majority of the voting power of the Common Stock entitled to vote. Section 78.320 of the Nevada Revised Statutes generally provides that any action required to be taken at any annual or special meeting of stockholders of a corporation, or any action which may be taken at any annual or special meeting of such stockholders, may be taken without a meeting, without prior notice and without a vote, if a consent or consents in writing, setting forth the action so taken, shall be signed by the holders of outstanding stock having not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting at which all shares entitled to vote thereon were present and voted.

In order to eliminate the costs and management time involved in soliciting and obtaining proxies to approve the Proposal and in order to effectuate the Proposal as early as possible in order to accomplish the purposes of the Company as hereafter described, the Board of Directors of the Company voted to utilize, and did in fact obtain, the written consent of the holders of a majority of the voting power of the Company. Approval of the Proposal was obtained as of October 30, 2013 by written consent of the holders of shares representing a majority of the voting power.

No consideration was paid for the consent of any consenting stockholder.

**INTERESTS OF CERTAIN PERSONS IN THE PROPOSAL**

No director, executive officer, associate of any director or executive officer, or any other person has any substantial interest, direct or indirect, by security holdings or otherwise, in the Proposal to which is not shared by all other holders of the Company's Common Stock. See "Stockholdings of Certain Beneficial Owners, Directors and Management."

**DESCRIPTION OF CAPITAL STOCK**

The following description of our capital stock summarizes the material terms and provisions of the indicated securities. For the complete terms of our Common Stock please refer to our articles of incorporation, and bylaws that we have filed with the SEC.

We are authorized to issue 1,000,000,000 shares of Common Stock, \$0.001 par value per share, and 5,000,000 shares of Preferred Stock.

## **Common Stock**

**Voting.** Each holder of Common Stock shall have one vote in respect of each share of stock held of record on the books of the corporation for the election of directors and on all matters submitted to a vote of our stockholders.

**Dividends.** The holders of shares of Common Stock shall be entitled to receive, when and if declared by the board of directors, out of our assets which are by law available for dividends, dividends payable in cash, property or shares of capital stock.

**Dissolution, Liquidation or Winding Up.** In the event of any dissolution, liquidation or winding up of our affairs, holders of Common Stock shall be entitled, unless otherwise provided by law or our articles of incorporation, including any certificate of designations for a series of preferred stock, to receive all of our remaining assets of whatever kind available for distribution to stockholders ratably in proportion to the number of shares of Common Stock held by them respectively.

**Other Rights and Restrictions.** Holders of our Common Stock do not have preemptive rights, and they have no right to convert their Common Stock into any other securities. Our Common Stock is not subject to redemption by us. The rights, preferences and privileges of common stockholders are subject to the rights of the stockholders of any series of preferred stock that are issued and outstanding or that we may issue in the future.

## **Preferred Stock**

The preferred stock may be issued in one or more series and our Board of Directors, without further approval from our stockholders, is authorized to fix the dividend rights and terms, conversion rights, voting rights, redemption rights, liquidation preferences and other rights and restrictions relating to any series. Issuances of preferred stock, while providing flexibility in connection with possible financings, acquisitions and other corporate purposes, could, among other things, adversely affect the voting power of the holders of our common stock.

## **APPROVAL OF REVERSE SPLIT**

### **Background**

As of October 15, 2013, 422,316,252 shares of common stock were issued and outstanding out of 1,000,000,000 shares outstanding. Additionally, 90,750,435 shares of common stock are subject to outstanding options and warrants. Pursuant to an Agreement and Plan of Merger dated as of September 30 2013, among the Company, Hygeia Therapeutics, Inc. (“Hygeia”), Canterbury Laboratories, LLC (“Canterbury”), and certain other parties, the Company agreed to acquire all of the equity interests of Canterbury and Hygeia held by the holders thereof for 115,011,563 pre-reverse split shares of the Company’s common stock. Additionally, the Company and Histogen, Inc. (“Histogen”) have executed a non-binding letter of intent pursuant to which the Company agreed to acquire all of the capital stock of Histogen for 350,000,000 pre-reverse split shares of the Company’s common stock. In connection with the acquisition of Canterbury/Hygeia and Histogen and the extinguishment of the Company’s liabilities, the Company intends to conduct private placements of its securities (the “Private Placements”) requiring the issuance of additional shares of common stock and/or securities convertible into or exercisable for common shares.

While the Company has sufficient authorized shares to complete the acquisitions of Canterbury/Hygeia and Histogen, the Company will not have sufficient shares to complete the presently contemplated Private Placements, to the extent it involves the immediate issuance of common shares, as well as for possible future financings or acquisitions or equity-based compensation awards for employees or consultants or for issuance of common shares in respect of the Private Placements upon conversion or exercise of any derivative securities issued in respect thereto. Because the number of authorized shares will not change due to the reduction of the number of shares of common stock outstanding as a result of the reverse split, the Company believes that, after the implementation of the reverse split, it will have sufficient authorized common shares available to cover the issuances of common shares required under the Canterbury/Hygeia and Histogen acquisitions, the Private Placements and possible future issuances of common shares in respect of acquisitions, financings, stock grants to employees and others, and other corporate purposes as presently contemplated.

Additionally, the current market value per share of our common stock may not appeal to brokerage firms that are generally reluctant to recommend lower priced securities to their clients. Investors may also be dissuaded from purchasing lower priced stocks because the brokerage commissions, as a percentage of the total transaction, tend to be higher for such stocks. Moreover, the analysts at many brokerage firms do not monitor the trading activity or otherwise provide research coverage of lower priced stocks. In addition, a variety of brokerage house policies and practices tend to discourage individual brokers within those firms from dealing in low priced stocks. Some of those policies and practices pertain to the payment of broker commissions and to time consuming procedures that function to make the handling of low priced stocks unattractive to brokers from an economic standpoint. Therefore, the increased per-share market price of our common stock that is expected to result from the reverse stock split may increase the attractiveness of our common stock to such brokerage firms and investors. We also may, in the future, seek to obtain a listing of our common stock on the NYSE Market or NASDAQ Capital Market which have minimum bid price requirements for new applications of \$2.00 and \$4.00 per share.

As a result of the foregoing, the Company's board of directors and stockholders representing 53% of the Company's voting power have approved the reverse stock split in the range of between 1-for-50 and 1-for-100, which specific ratio will be determined by the board of directors prior to the filing of the amendment to our Articles of Incorporation. In determining the reverse split ratio, the board of directors may consider a number of factors, including the historical and then-current trading price and trading volume of our common stock.

#### **Effects of the Reverse Stock Split**

After the effective date of the proposed reverse stock split, each common stockholder will own a reduced number of shares of our common stock. Without taking into account fractional shares that will be rounded up to the nearest whole share as described below, based on the number of shares of common stock outstanding as of the record date, there will be a reduction in the number of outstanding common shares to a range of approximately 4,223,000 shares to 8,446,000 shares, depending on the stock split ratio, before giving effect to the issuance of common shares from the Canterbury/Hygeia and the Histogen acquisitions and the Private Placements.

The proposed reverse stock split will reduce the number of shares of our common stock issuable in connection with the Canterbury/Hygeia and Histogen acquisitions and upon exercise outstanding stock awards under our outstanding compensation plans in proportion to the exchange ratio of the reverse stock split and will effect a proportionate increase in the exercise price of outstanding stock options. In connection with the proposed reverse stock split, the number of shares of our common stock issuable upon exercise of outstanding stock awards will be rounded to the nearest whole share and no cash payment will be made in respect of such rounding. The proposed reverse stock split would have a similar effect upon our outstanding warrants.

The proposed reverse stock split will affect all of our common stockholders uniformly and will not affect any common stockholder's percentage ownership interest in us, except to the extent that the reverse stock split results in any of our common stockholders owning a fractional share as described below. The voting rights and other rights and preferences of the holders of our common stock will not be affected by the proposed reverse stock split. The number of stockholders of record will not be affected by the proposed reverse stock split. The par value of our common stock would remain unchanged.

The Proposal to effect the reverse stock split will not proportionately change the number of authorized shares of our common stock. As a result, one of the effects of the reverse stock split will be to effectively increase the proportion of authorized shares which are unissued relative to those which are issued. This could result in us being able to issue more shares without further stockholder approval.

Although we believe that a reverse stock split may be in the best interests of the Company and our stockholders, once implemented, the reverse stock split may result in some stockholders owning "odd-lots" of less than 100 shares. Brokerage commissions and other costs of transactions in odd lots may be higher, particularly on a per-share basis, than the cost of transactions in even multiples of 100 shares.

#### **Additional Risks Associated with the Reverse Stock Split**

There can be no assurance that the market value per share of our common stock after the reverse stock split will increase and/or remain higher than the current market value per share of our common stock at any time or for any period of time after the reverse stock split or that our total market capitalization after the reverse stock split will be equal to or greater than our total market capitalization before the reverse stock split.

There can be no assurance that the market value per share of our common stock after the reverse stock split will be increased by a multiple equal to the reverse stock split ratio, or increase at all, or remain constant in proportion to the reduction in the number of outstanding shares of our common stock immediately prior to the reverse stock split or any increase in the market per share of our common stock after the reverse stock split. Accordingly, our total market capitalization after the reverse stock split could be lower than our total market capitalization before the reverse stock split and, in the future, the market value per share of our common stock after the reverse stock split may not exceed and/or remain higher than the current market value per share of our common stock immediately prior to the reverse stock split. In many cases, the total market capitalization of a company immediately after a reverse stock split is lower than the total market capitalization immediately prior to the reverse stock split.

When the reverse stock split is implemented, the resulting per-share price may not attract institutional investors or investment funds and may not satisfy the investing guidelines of these investors, and consequently, the trading liquidity of our common stock may not improve.

While we believe that a higher stock price may help generate investor interest in our common stock, the reverse stock split may not result in a stock price that will attract institutional investors or investment funds or satisfy the investing guidelines of institutional investors or investment funds. A decline in the market price of our common stock after the reverse stock split may result in a greater percentage decline than would occur in the absence of the split. If the reverse stock split is implemented and the market price of our common stock declines, the percentage decline may be greater than would occur in the absence of the split. The market price of our common stock is also based on our performance and other factors, which are unrelated to the number of shares of common stock outstanding.

## **Implementation of the Reverse Stock Split**

At such time as our board of directors believes that the reverse stock split is in the best interests of the Company and our stockholders, we will file the amendment to our Certificate of Incorporation with the Secretary of State of the State of Nevada. Except as explained below with respect to fractional shares, on the effective date, each number of specific shares of our common stock (between 50 and 100, depending on the stock split ratio) will be combined and converted, automatically and without any action on the part of the stockholders, into one share of common stock. Beginning on the effective date, each certificate representing old shares will be deemed for all corporate purposes to evidence ownership of new shares, if approved.

As soon as practicable after the effective date, stockholders will be notified that the reverse stock split has been effected. Our transfer agent will act as exchange agent for the reverse stock split for purposes of implementing the exchange of stock certificates. Holders of old shares may (but will not be required to) surrender to the exchange agent certificates representing old shares in exchange for certificates representing new shares in accordance with the procedures to be set forth in a letter of transmittal to be sent by us or our transfer agent. No new certificates will be issued to a stockholder until such stockholder has surrendered such stockholder's outstanding certificate(s) together with the properly completed and executed letter of transmittal to the exchange agent. Stockholders should not destroy any stock certificate and should not submit any certificates until requested to do so.

## **Payment for Fractional Shares**

We will not issue any fractional shares in connection with the reverse stock split. Instead, any fractional share resulting from the reverse stock split will be rounded up to the nearest whole share.

## **U.S. Federal Income Tax Consequences**

The following is a summary of important U.S. federal tax considerations of the proposed reverse stock split. It addresses only stockholders who hold the pre-reverse stock split shares and post-reverse stock split shares as capital assets. It does not purport to be complete and does not address stockholders subject to special rules, such as financial institutions, tax-exempt organizations, insurance companies, dealers in securities, mutual funds, foreign stockholders, stockholders who hold the pre-reverse stock split shares as part of a straddle, hedge or conversion transaction, stockholders who hold the pre-reverse stock split shares as qualified small business stock within the meaning of Section 1202 of the Internal Revenue Code of 1986, as amended, or the Code, stockholders who are subject to the alternative minimum tax provisions of the Code and stockholders who acquired their pre-reverse stock split shares pursuant to the exercise of employee stock options or otherwise as compensation.

This summary is based upon current law, which may change, possibly even retroactively. It does not address tax considerations under state, local, foreign and other laws. We have not obtained a ruling from the Internal Revenue Service or an opinion of legal or tax counsel with respect to the consequences of the reverse stock split.

**ACCORDINGLY, ALL STOCKHOLDERS SHOULD CONSULT THEIR OWN TAX ADVISORS AS TO THE SPECIFIC FEDERAL, STATE, LOCAL AND FOREIGN TAX CONSEQUENCES TO THEM OF THE REVERSE STOCK SPLIT.**

The reverse stock split is intended to constitute a reorganization within the meaning of Section 368 of the Code. Assuming the reverse stock split qualifies as a reorganization, a stockholder generally will not recognize gain or loss on the reverse stock split. The aggregate tax basis of the post-split shares received will be equal to the aggregate tax basis of the presplit shares exchanged therefor, and the holding period of the post-split shares received will include the holding period of the pre-split shares exchanged. No gain or loss will be recognized by us as a result of the reverse stock split.
